

CQBMLK14A-MARS CLOSE COMBATANT ASSAULT RIFLE SYSTEM

The rigours of combat, and the varied and compromised firing positions our warriors experience, leaves no room for a unreliable assault rifle.

The unmatched strength and reliability of this system based on LMT's Monolithic Rail Platform, ensures that it will perform when its needed most.

The Nightforce MIL-SPEC ATACR F1 1-8x24mm provides the accuracy and repeatability proven under the harshest conditions, and has the versatility of serving as a true 1x battle sight in close with the precision and magnification at 8x, to engage targets to its maximum effective range.

The 6.8SPC calibre increases the lethality of the rifle above and beyond that previously available in 5.56mm however, with the versatility of the LMT system the change between a 5.56mm and a 6.8mm can happen in seconds, making this system both ready now, and future ready.

RIFLE PACKAGE DETAILS

RIFLE

- LMT Defense CQBMLK14A-MARS MLC 5.56 Full-Auto Rifle System (6.8mm)

SUPPRESSOR

- LMT Defense Multisup-Nocomp Multicaliber .22 - .300 Quick Detach Suppressor

MLK6520-MARS MEDIUM RANGE SNIPER RIFLE SYSTEM

LMT Defence's Monolithic Rail design provides the most rugged and reliable AR style platform ever created, topped with the world renowned rugged, reliability of the Nightforce MIL-SPEC ATACR F1 4-20x50mm.

This package has been designed around the increased lethality of the 6.5cm calibre, however with the pairing of the Tremor 3 reticle and the quick and easy barrel changes of the LMT platform, this system can quickly be reconfigured for different mission profiles.

The Theon Sensors DAMON LR aligns perfectly every time along the monolithic rail, and maintains the unfair advantage through the long nights, making this potent system a true force multiplier across the full spectrum of Operations.
